

The Journal of InterDisciplinary Research Applied to Medicine (J-DReAM) is one of the editorial aims of DREAM (Interdisciplinary Laboratory of Applied Research in Medicine - University of Salento and the local health authority - ASL Lecce). DREAM is an interdisciplinary laboratory that includes different scientific areas such as biology, biotechnology, biomedicine as well as physics and statistics, computer engineering and biomaterials; it also involves juridical disciplines, political, social sciences and humanities. The purpose of DREAM is to translate the research activities of these scientific areas in clinical settings.
