

Note di Matematica

Volume 41, number 2, 2021

- J.B. GAUCI AND J.P. ZERFAFA: *The Erdős–Faber–Lovász Conjecture revisited* 1
- P. GUPTA, S. HANS, A. MIR: *Bounds for the derivative of a certain class of rational functions* 9
- K. BABINA, K. KRISHNADAS, B. CHANAM: *L^r inequalities for the derivative of a polynomial* 19
- A. BLALI, R. A. HASSANI, A. EL AMRANI, M. EL BELDI: *Tensor product semigroups on locally convex spaces* 31
- A. LEACI, F. TOMARELLI: *Bilateral Riemann–Liouville fractional Sobolev spaces* 61
- A. CAVICCHIOLI, F. SPAGGIARI: *Recognizing Euclidean Space Forms with Minimal Fundamental Tetrahedra* 85
