

List of Figures

1.1	The ideal formulation and a possible LP relaxation of an IP problem	4
2.1	Example of a Multicast problem in a complete graph with 6 nodes	19
2.2	Broadcast property	22
2.3	Example for the distance arrays	27
2.4	Example for constraints (2.20)	31
2.5	The graph for a Multicast problem in wireless network and the graph for the equivalent Steiner Arborescence problem	37
3.1	An inequality with right hand side two	51
5.1	Example of an optimal solution of the linear relaxation of F_1 which is infeasible for the linear relaxation of F_2	97

5.2	Example of a feasible solution for the linear relaxation of F_4 that is not feasible for the linear relaxation of F_3	98
